

WATER HIGHER

Every Effort Is Being Made to Limit the Damage

Highest Stage in History of the Big River Expected

Tramps and Mules Used to Protect Levees--Memphis Plants Forced to Suspend Operations-- The Day's Flood News.

New Orleans, La., March 13.—The Mississippi river gauge at the head of Canal street at 10 o'clock this morning reads 18.8, a rise of one-tenth of a foot in the past 24 hours. Rain fell continuously throughout the night and is still falling. No reports of crevasses were received at the office of the State Board of Engineers this morning and at the office of the New Orleans Levee Board no news of importance had come in.

Memphis, Tenn., March 13.—The gauge of the Mississippi river this morning at 7 o'clock read 36.1, a rise of half a foot during the preceding 24 hours, and 3.1 feet over the danger line. The rise is becoming more rapid and a stage of 37 feet is predicted by Sunday morning. The territory under water on both the Arkansas and Mississippi sides is increasing rapidly. Six large lumber plants in Memphis have had to suspend operation and the water works and gas plants are threatened with suspension.

Evansville, Ind., March 13.—The river situation is encouraging this morning. The water is receding and the gauge is now 42 feet. Farmers driven out of the lowlands are preparing to return as soon as conditions permit. Reports from along the Wabash and White rivers are reassuring and it is believed that the worst is over.

Caruthersville, Mo., March 13.—Caruthersville is threatened with a flood that may equal the 1897 stage of water. The old levee is still intact, but is a mere thread of an embankment which is rapidly crumbling away as the raging torrents lash it. Continuous rains have hindered work on the new levee and impeded all work where the break is threatened. The whirling eddies undermine the old levee at various places, and by the time one cave is repaired another is started at an unprotected point. Bonnets have been built behind these places as fast as they appear. The new earthworks are ripped up with bags of sand, for without them the floods would sweep through the new embankment. Ten days of clear weather will allow the new levee to be completed, which will afford ample protection. The peril lies in the destruction of the old levee before the new stretch is completed.

At this time there is a gap of 600 feet, which will require 18,000 cubic yards of earth to fill. This gap seems to yawn for the rushing waters.

There has been no loss of life and no serious damage to property, nor will there be until the levee breaks. The river is protected by steamers and the levee by footmen night and day. Telephones and electric lights have been installed to expedite work on the levee, and work is pushed night and day by a force of 400 men with wheelbarrows and teams. No alarm is felt but the full danger is realized by everyone. As Captain Forest, the contractor, said: "We are putting our trust in the hobo and the mule, the hoboes chiefly, as the ability of the mule is limited." The levee here is regarded as the weakest in the Mississippi Basin by Captain Lucas, who is now engineer in charge of this district.

He is having the river constantly patrolled from Paducah to Memphis day and night, and is holding the Government fleet in reserve, with which he would rescue the people in the event a crevasse is made by the swelling tide and the whirling eddies. The depth of the channel here is about 125 feet and the water is running on its race for the sea at the speed of eight miles an hour. Should the levee give away it would sweep fences and small houses before it and devastate hundreds of thousands of acres, drive the people to the high lands and force those who linger to scaffold themselves and their stock eight to twelve feet high to keep out the water. The people, however, will not give up. If the old levee breaks there will be men at both ends of the crevasse to staunch the flow.

Two tables for experimentation have been taken by the Carnegie Institute in the celebrated laboratory of Dr. Dohrn's at Naples, and one in a station which is to be established in the Bermudas.

TRAINS

Running Sixty Miles an Hour Collided
Injuring Five Trainmen—One Being
Fatally Hurt.

Chattanooga, Tenn., March 13.—Northbound passenger train No. 3 and southbound passenger train No. 4 on the Nashville, Chattanooga and St. Louis railway collided one-half mile north of Shellmound, Tenn., this morning, demolishing the engines and injuring five trainmen. M. Pond, engineer of No. 3, was fatally hurt. Both trains were running sixty miles an hour. Engineer Pond of train No. 3 overlooked his orders and passed the siding at Shellmound.

LARIAT

Skillfully Thrown Caught the Boy and
Rescued Him From the Icy
River.

Omaha, Neb., March 13.—A boy named Webster was rescued from drowning in novel and thrilling manner at Hardy Neb. Webster and a companion named Hammit were crossing the Republican River in a skiff. The river was swollen, the skiff was capsized and the lads thrown into the icy river.

Hammit contrived to reach an island while Webster was carried swiftly down stream. For a mile he kept his head above water by clinging to a cake of ice. Then a rope was thrown to him but he was so numbed he could not grasp it. A thirteen-year-old boy then sought to lasso him. In an agony of suspense spectators on the shore watched the lariat as it hurried through the air, and a shout went up as it fell over the boy's shoulders. Strong men pulled the boy to the shore more dead than alive but he was revived and is now well.

JURY

Allowed Woman To Go Free

Mrs. McWilliams Tried at Pittsburg

FOR CONSPIRING TO KILL HER
FORMER HUSBAND

BYERS CONFESSED THE CRIME

Saying Woman Had Promised to Mar-
ry Him—Baby Was Born Since
The Woman's Arrest.

Pittsburg, Pa., March 13.—The jury in the case of Mrs. Mary McWilliams tried jointly with her husband, John, for conspiring with Wm. Byers to murder August Layton, her former husband, this morning returned a verdict acquitting the woman. The court ordered the jury to acquit McWilliams. Byers had confessed the murder, turning state's evidence. Mrs. McWilliams, immediately after the verdict went to jail and secured her babe, born since her incarceration. Byers is held for sentence, which will be for life to prison. Byers charged in the trial that he murdered Layton, her former husband, at the instigation of Mrs. McWilliams, who he said promised to marry him. Byers after Layton was dead.

VICTIM

Of Assassin Gives Property

To His Three Children Cutting Wife Off

RIGID INQUEST TO BE MADE BY
OFFICERS.

MRS. SETH PAINE WILL LEAVE

Bodies of the Pennells Taken to Maine
For Burial—The Inquest Begins
On Saturday.

Buffalo, N. Y., March 13.—The will of Edwin Burdick will be offered for probate today.

Mrs. Burdick is said to be completely cut off. It is probable an effort will be made to have the will set aside. The entire estate is left to the children.

To his own blood relatives several small bequests are made, but aside from these the whole fortune is placed in trust for the three girls.

For the protection of the interests of the children, six guardians are named. Three of these are guardians for the persons of the children and three guardians of their property.

The estate is valued at \$80,000. "Nearly the whole of Mr. Burdick's fortune consists of stock in the manufacturing corporations in which he was interested," said Lawyer George C. Miller, "While this stock might bring a comparatively low price in the open market, it is productive of a considerable income, enough to provide handsomely for the children, and in all probability it will be retained by the estate."

The bodies of Arthur R. Pennell and his wife, who were killed on Tuesday night when a runaway automobile plunged into the Gehres quarry with them, were taken from the undertaking rooms to the Cleveland Ave. home last night.

After funeral services today the bodies were taken to Mr. Pennell's former home, near Brunswick, Me., for burial.

Mrs. Seth T. Paine says that she intends leaving Buffalo. She refuses to disclose her destination, but it is thought she will make her home temporarily with her husband at Batavia.

Mrs. Paine is in a state of nervous collapse over the Burdick case, and was crying bitterly when her correspondent called at her Elmwood Ave. home.

"I am going away from this dreadful place," she exclaimed half hysterically.

"I am an outcast, an object of feminine scorn, and I cannot stand it any longer."

The inquest into the death of Mr. Burdick will begin Saturday.

It is expected that much new light may be thrown on the tragedy. At any rate the full extent of the information now in the hands of the authorities will be made known.

"I propose to make the inquest into the death of Burdick the most complete and sweeping investigation ever conducted into any death in Erie county," said Justice Murphy. "I shall exercise all my prerogatives if necessary to get at the truth."

BIG REWARD FOR POLICE MURDERER

Hartford, Conn. March 13.—A resolution appropriating \$10,000 for the apprehension of the murderer of Policeman Paul Mandelsohn of Waterbury, who was killed Sunday night in an attack on a trolley car, was adopted by the legislature.

President Young of the Connecticut Railway and Lighting company announced at Waterbury that the company would pay \$1,000 for information leading to the detection of the murderers. The reward now amounts to \$19,400.

In Mine Where Fifteen Men Were at
Work—Three Dead Bodies
Have Been Found.

Springfield, Ills., March 13.—A dispatch from Cardiff, Livingston county says a mine explosion occurred there at midnight. Fifteen miners were in the mine. Three dead bodies had been recovered up to 9 o'clock. There is no escape for the others except by the air shaft.

POPE

Recovers Sufficiently to Resume His
Usual Life Today—The Pope
Receives Americans.

Rome, March 13.—The Pope resumed his usual life today. His Holiness conferred at some length with Cardinal Rampolla, assisted at the Lenten sermon, received two foreign cardinals and several bishops and priests. He received several Americans. Father Barrett presented the Pope with a large jubilee offering. The prelate in thanking him, expressed great friendship for Bishop McDonnell.

New Indictment.

Indianapolis, Ind., March 13.—Dr. Joseph C. Alexander was reindicted by the grand jury today on the charge of receiving the stolen body of Mrs. Rose Neidlinger. Dr. Alexander was tried a month ago for receiving the stolen body of a colored girl, but the prosecutor thought a better case could be made of the Neidlinger case. Trial of this indictment was today set for April 6.

EXTRA

Session of 58th Congress

May Be Called By the President.

FINAL VOTE ON CUBAN TREATY
NEXT THURSDAY

FOLLOWED BY AN ADJOURNMENT

Is the Program of Senate Republicans
—President Served Notice on
Senate Leaders.

Washington, March 13.—(Bulletin)—Thursday of next week has been fixed by the Republicans of the Senate upon which to make a final vote on the Cuban Reciprocity treaty, the vote to be followed by an immediate adjournment of the present extra session of the Senate. This proposition will be submitted to the Democrats today and if acceptable to them will be adopted as the program.

Washington, March 13.—There will probably be an extra session of the 58th Congress in the fall. It was learned today on the highest authority that the President yesterday told several of the Democratic leaders of the Senate that if they should insist on tacking onto the Cuban reciprocity treaty an amendment providing for concurrent action by the House to make the treaty effective, he would hold himself free to call an extra session for the adoption of such a resolution in the fall. He named no particular date and did not say positively that he would call an extra session. It is believed, however, that he will take this course should the Senate program regarding the treaty go through as outlined at present.

The President has also served notice on the Senate leaders that he will not accept defeat of either of the Panama canal or reciprocity treaties through failure to secure a quorum, but will hold the Senate in extra session until both the treaties shall have been passed upon.

CZAR'S DECREE

Grants Freedom of Worship In Russian Empire

Self Government Given By Czar to the Provinces

Every Creed, Even the Jewish, Included--Life Work of Tolstoi Crowned At Last--The Decree Dooms Historic Autocracy.

Czar Nicholas II. of Russia, who now crowns his labors for the welfare of his people by granting religious freedom and a constitutional monarchy, was born May 18, 1868, and assumed his reign November 1, 1894. His wife was the granddaughter of the late Queen Victoria of England. During his nine years' rule he has ameliorated to a great extent the condition of the lower classes and of the Siberian convicts, but his most noted achievement was his appeal to the nations which resulted in the establishment of the peace tribunal as a Court of Arbitration in The Hague. The Czar's decree is regarded in Russia as a triumph for the noted writers, Count Leo Tolstoi and Maxim Gorki, who have for years agitated reforms for the oppressed peasantry and the down-trodden classes. As regards the autonomy to be given to the provinces, both our former Ambassador to St. Petersburg, Charles Magne Tower, and the present representative, Robert McCormick, have been called into consultation by the Czar to explain the regime in the commonwealths of America.

St. Petersburg, March 13.—The Czar has issued a decree, providing for freedom of religion throughout his dominions, establishing, to some degree local self-government and making other concessions.

After referring to the efforts of his predecessors, particularly his father, to add to the welfare of the Russian people, the Czar announces his decision to grant freedom of religion to the orthodox rule clergy while enabling them to take a larger share in intellectual and public life.

"Thorough reform is to be effected in the provincial governments and district administrations by the local representatives, while attention will be devoted to securing closer co-operation between the communal authorities and parochial trustees of the orthodox churches wherever possible.

"Calling upon all our subjects to co-operate in strengthening the moral foundations of family, school and public life, under which alone the well-being of the people and the confidence of every one in the stability of his rights can develop, we command our ministers and chief officials concerned in this matter, to submit to us their views regarding the execution of our intentions."

Although the Jewish faith is not specifically mentioned in the Czar's decree, it is believed that the liberty granted to "all creeds" is intended to include the Jews.

The extension of self-government to the smaller communities, corresponding with the township organizations of the United States, is regarded as a great victory for the district and provincial assemblies, while the retention of the communal system, with greater freedom of withdrawal therefrom, meets the wishes of the peasants and landowners, expressed through their local committees on agricultural depression.

The Czar's desire for the co-operation of the educated public closely follows the action of Alexander II at the time of the emancipation movement.

Ceiba Captured.

Washington, March 13.—The State department today received a dispatch from Vice Consul William C. Wildcat at Ceiba, Honduras, to the effect that Ceiba has been captured by revolutionary forces and suggesting that a warship be sent there.

ENJOIN SOLDIERS

IS MINERS' PLAN

Denver, Colo., March 13.—The officers of the Western Federation of Miners have decided to invoke the aid of the law to punish officers of the National Guard, who, it is alleged, have perpetrated outrages upon the Colorado city strikers, and an injunction will be applied for to prevent any repetition of such acts.

"Action will be begun against officers of the militia and others" said Secretary W. D. Haywood of the Federation, "for confiscation of property, invading private houses, arresting men without warrants and holding them without charges and other illegal acts."

"In some cases the proceedings may be in the nature of civil suits, while in others criminal action may be instituted."

CZAR OF RUSSIA.

INSANE FARMER'S DEED

Murders His Wife and Six Children, Then Brains Himself--Slayer Had Been a Peaceable Man --Suddenly Became Insane.

St. Louis, March 13.—Adolph Krauss, a German farmer living twenty-one miles west of St. Louis, near Bellfontaine last night killed his wife and six children with sledge hammer. He then knocked himself unconscious with the hammer and at midnight was dying. Krauss suddenly became insane it is believed. He had the reputation among his neighbors of being a quiet inoffensive, industrious farmer and no cause but insanity has been assigned.

About 7 o'clock John Krauss, a brother, went to Adolph's house to make a call. The lights were out but the door was unlocked and he entered the house and upon striking a light was horrified to discover the terrible

tragedy. From all that can be learned Adolph Krauss entered the house armed with a sledge hammer. Without warning he struck his wife in the head killing her instantly. Then seizing his first child aged 12, he dealt a murderous blow. The other five children were killed similarly, the last being a six-months-old baby. Krauss then placed the seven bodies side by side on the floor in one room. He then seized the hammer and dealt himself a blow on the skull which fractured it and knocked him unconscious. His falling body falling almost in line with those of his victims.

When John Krauss discovered the tragedy he immediately notified the authorities.

CHILD LABOR.

One of the beneficial results of the investigation of coal mining in Pennsylvania will probably be the passage of a law raising the age limit for the employment of little men and women in every industry in that state. Pennsylvania is by no means the only commonwealth of the union in which better laws should be enacted for the regulation of the employment of boys and girls too young for hard work, and who should be attending school instead of being employed in labor of any kind because they can be hired for small wages. In many states the cry of the children is an exceedingly bitter cry.

Ohio is not free from reproach in this matter. It is true there is a law forbidding the employment of children under 14 years of age, certain conditions excepted, but it is not strictly enforced. In the larger cities there are too many young children employed in the factories and stores, and also as messengers who are sent out on calls at any hour, day or night which take them to resorts of the vicious and criminal classes. Our legislators should by stringent laws, save the children from being employed at regular labor until they arrive at an age when their bodies and minds will not be dwarfed or injured by the constant grind of daily toil.

The new immigration bill is furnishing much perplexity to Commissioner General Sargent. Its application extends evidently to the archipelago possession of this Nation, Porto Rico, Hawaii and the Philippines. It has been decided that residents in these islands are not citizens of the United States. The Hawaiian must now pay a head tax should he desire to come over to the mainland to settle, and he must stand an examination in reference to many things that the average native of this country would resent being questioned about. The law must apply also to such emigrants as desire to leave this country to risk disease in the Philippines to find wealth among the Brownies. The population in our imperial annexes will receive a decided impression of the fatherly care exercises by the benevolent assimilators.

Prohibition Has a Price in Maine.

(Pittsburg Post.)

The State of Maine, it is well known has a stringent prohibitory law, and has ingrafted prohibition in its constitution. But the ways of enforcing prohibition in that "down East" section are peculiar. Bangor, one of the principal cities of Maine, has a plan by which it is said all dealers in intoxicants are fined once a year, and they are allowed to go free from molestation for the remainder of the year. There are 200 saloons in the city. Last Tuesday week, complaints were made of about fifty dealers nearly all of whom appeared voluntarily in court and paid fines, the minimum rate being \$210. In two days \$10,522 has been collected in that way. The men who paid the money proceed with their saloon business, feeling that they are safe for another year if they keep orderly places. If public sentiment sustains such a practice, and it does, it is useless to attempt to enforce the prohibition law. This shows the demoralizing influence of prohibition.

JUSTICE DAY

Who Is Suffering From Pneumonia Is Reported by Doctor to be Better Today.

Washington, March 13.—After his morning visit to Justice Wm. R. Hay, Dr. Hardin said today: "There are no unfavorable symptoms and Justice Day is better this morning."

It is also admitted that the justice is suffering from pneumonia. That this news was held back by the doctor yesterday, is due to the request of the family that no alarming news should be sent out. The seriousness of the case however is today acknowledged. Dr. Oster of Johns Hopkins University, and H. S. Platt of Baltimore, have been summoned and will go into consultation with Dr. Hardin today. Besides Mrs. Day, two of the justice's sons are in constant attendance upon him. The other two sons, one at Asheville, and the other at the University of Michigan, are kept informed of their father's condition hourly by telegraph.

An offer has been made by the Hamilton & Lake Erie Power company to the Mayor of Toronto to deliver 20,000 horse power of electrical energy in Toronto at \$200 per horse power year.

CONDITION

OF HON. BERIAH WILKINS IS IMPROVED

But He Will Not Be Able to Return To Washington For at Least a Month.

New York, March 13.—Improvement in the condition of Hon. Beriah Wilkins, who was stricken with paralysis on Monday at the Waldorf-Astoria has been noted.

A member of Mrs. Wilkins' family said this morning that he was much better and had regained his power of speech. On account of kidney trouble, from which Mr. Wilkins has suffered for several years however, complications may develop. Today will be the critical one. In any event Mr. Wilkins will not be able to return to his home in Washington for a month or more.

DR. FOWLER

Is Arrested on a Larceny Charge—A Former Ohian Claimed to Have Defrauded a Woman.

New York, March 13.—Dr. R. C. Fowler, who has been mentioned with the alleged Hagaman fraud has been arrested on a warrant secured by Assistant District Attorney Garvin charging him with grand larceny.

The charge is in connection with the sale of mining stock, which Mrs. Isabelle Gray Taylor alleges Dr. Fowler induced her to buy under false pretenses.

Mrs. Taylor alleges Dr. Fowler said the company was paying 2 per cent a month, and that she gave Dr. Fowler \$500. Subsequently she alleges, Andrew D. Meloy informed her that the company never made any profits.

Assistant District Attorney Garvin said 1200 stockholders were interested to the extent of \$75,000.

Dr. Fowler was arrested on a second warrant, charging him with attempting to bribe a public officer. He was arrested on this charge, owing to an affidavit he is alleged to have made charging Andrew D. Meloy with the same crime, and in which it is alleged he acknowledges having given Meloy \$250 to give to Police Inspector (then captain) Titus.

Meloy was also arrested on a warrant on the same charge.

Inspector Titus said he didn't know either man.

All the blood in your body passes through your kidneys once every three minutes.

The kidneys are your blood purifiers, they filter out the waste or impurities in the blood. If they are sick or out of order, they fail to do their work. Pains, aches and rheumatism come from excess of uric acid in the blood, due to neglected kidney trouble.

Kidney trouble causes quick or uneasy heart beats, and makes one feel as though they had heart trouble, because the heart is over-working in pumping thick, kidney-poisoned blood through veins and arteries. It used to be considered that only urinary troubles were to be traced to the kidneys, but now modern science proves that nearly all constitutional diseases have their beginning in kidney trouble.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy is soon realized. It stands the highest for its wonderful cures of the most distressing cases and is sold on its merits by all druggists in fifty-cent and one-dollar sizes. You may have a sample bottle by mail. Home of Swamp-Root, free, also pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing Dr. Kilmer & Co., Binghamton, N. Y.

Don't make any mistake, but remember the name: Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

PATTI A WORLD WONDER

Stories and Characteristics of the Famous Singer.

STICKLER FOR OUTDOOR EXERCISE

Secret of the Great Prima Donna's Youth and Power Described by the Rev. Thomas B. Gregory—Her Kindness to a Peasant Woman and Her Dying Daughter.

All the world is wondering over the announcement that Mme. Adeline Patti is to make another song tour, says the Rev. Thomas B. Gregory in the New York American and Journal.

The great prima donna was born in 1843 and is therefore at the present time sixty years old. It is this latter fact that makes the world wonder. That a woman (threescore years of age, a woman who had won her crown as queen of the opera before many of the fathers and mothers of today were born, should be announced for sixty concerts in this country the coming fall is something that the public cannot quite comprehend.

It is a mystery to us. Must there not be some mistake? Can it be possible that the Patti we are to hear in the coming fall is the Patti who by her talismanic voice charmed our fathers and mothers more than a generation ago? It is the same identical Patti. There is no doubt about it. But can it be that she can still sing? Undoubtedly she can sing, very superbly, else the best judges of vocal music in the world would not pay her \$500,000 for the tour—\$7,500 a concert, \$150 for each minute she is on the stage, \$2.00 a second!

Yes, you may depend upon it that Patti—Patti at sixty—can still sing and sing like Patti. It is said that this wonderful woman does not show her age by twenty-five years. Not behind the footlights, but out in the honest sunlight she looks, we are told, like a woman of thirty-five. What is the secret of her youth and power? It is what a great many people would like to know; it is what I am now going to tell the people. In the first place Patti's fine mental and physical condition is the result of Patti's own applied intelligence and will power.

When she was a mere child, she said to herself, "I will be young as long as I live," and she has bent every energy and purpose of her life toward the fulfillment of that resolution. The great singer was born with good sense, and having that she realized that her first thought should be about her physical health. Accordingly she has always taken excellent care of her body. She has never been a drinker of alcoholic liquors. She has always been a plain liver, preferring to rich dishes the fare that was wholesome rather than "inviting." She has from her earliest youth been a great stickler for outdoor exercise. The winds have blown upon her, the sunshine has bathed her. She knows what it is to be in close and loving touch with the dear old Nature whence comes the ozone of life.

In the meantime Patti did not overlook the fact that she had a mind and that it was the privilege of that mind to think and to revel in the immortal conceptions of the intellectually great of all ages. Mme. Patti is an unusually bright and intelligent woman, and there is scarcely a theme upon which she cannot talk with charming interest. Furthermore, this wonderful little woman has taken good care of her heart—that is to say, of the human affectional side of her nature. She has never allowed herself to become sour or cruel. She has always been able to see a bit of blue in the darkest sky.

From Craig's-Nos, the home of the great singer, comes this story: She was out walking one day and, feeling thirsty, called at a cottage by the wayside to ask for a glass of milk. When she had finished drinking the milk, she opened her purse to pay the cost, when the peasant woman raised her hand in gentle remonstrance, saying, "There is nothing to pay for the milk, but will madam kindly sing to us one of her sweet songs?"

Patti entered the humble home and sang in her most superb style "Home, Sweet Home." The astonished and delighted cottagers listened in raptures and tendered their distinguished visitor warmest thanks. Then from an inner apartment came a feeble voice: "Please sing that again. It was so beautiful!"

"That is my daughter, who is dying of consumption," said the cottager. "She is so fond of singing."

Patti visited the sick girl, sang the song to her and gave her a sympathetic word. The milk had been paid for by melody for which the world would have gladly paid thousands of dollars.

Such, then, is Adeline Patti. Is it any wonder that she is still young and beautiful and full of song?

Patti's perfect physical condition and her undiminished fund of animal spirits were revealed in an odd manner upon the occasion of her last London appearance in concert. While she was singing a heavy and exacting aria from one of the classic operas a wasp began buzzing about her nose. Patti brushed the insect away several times without interrupting her vocal performance, which only added to the wasp's evident determination to investigate the source of such celestial sounds. The singer's gestures under the circumstances were so out of keeping with the character of the aria she was interpreting that the audience could not conceal its smiles.

Finally the pestiferous insect managed to light on Patti's nose. This was too much. She made a hysterical flourish with both hands to rid herself of the enemy, then burst into ringing laughter, in which the audience joined, and skipped off the stage like a girl of sixteen.

TAYLOR HALL

WAS FILLED THURSDAY NIGHT WITH PEOPLE

Who Enjoyed "Ye Deestreet Skew!"
Given for the Benefit of W. C. T. U.—Repeated Saturday Night.

"Ye Deestreet Skew!" which was performed last evening at Taylor Hall for the benefit of the W. C. T. U. was a complete success in every regard.

Scene first: The meeting of the Board of Education. After examining four applicants, they chose the one who would be satisfied with the least pay, and the manner in which chairman of the "komity" disposed of the business would have made the late Thomas B. Reed green with envy.

Scene second: The first day of school, was full of trials to both teacher and pupils. The pigeon toed family, the boy who stuttered, the one that went to sleep, the girl who cried, the four year old, the giggler, the German girl, in fact every one had a prominent place in the doings of the school. One pupil on the front seat seemed to turn his whole attention to teasing the entire school.

Scene third: The last day of school. Five ladies and a member of the board of education visited the school, and listened with great gravity to the most exasperating exercises that any one could imagine. The visitors favored the school with a song and the member of the board made a speech—all equally mirth stirring. Between the acts Miss Bertha Doomey, and Mrs. Chas. Krebs sang solos, which were highly appreciated. Miss King and Miss Day were the accompanists. The entertainment will be repeated on Saturday night, at the popular Saturday night price, 10 cents. There was not one vacant seat last night.

Logical.

"Pa, what's a logical candidate?"
"He's the candidate, my son, that all sections—except the sections that are suited with the other candidates."

SCROFULA

Is an hereditary disease, and one for which a tainted ancestry or blood poisoning is responsible. It is transmitted through the blood and shows itself in swelling and enlargement of the glands of the neck, catarrh of the head, weak eyes, sores, abscesses and skin eruptions, with a gradual wasting away of strength and vitality. It also attacks the bones and joints, resulting in white swelling, hip disease and deformities of every kind. We see the effects of this awful blood taint every day, but it exists in so many forms that often it passes for something else and is treated as another disease.

Scrofula robs the blood of its nutritive qualities, and it leaves too poor to produce healthy growth and development, and thin, emaciated, and pallid, waxy complexion are the result.

Only a constitutional remedy, one that works through the blood, can such a disease that has been transmitted through generations, or been lurking in the blood since birth.

S. S. S. cleanses the blood of all scrofulous impurities, and discharging blood poisons there is a gradual disappearance of all the danger signs of Scrofula; strength and energy are restored, and the system is made healthy and strong.

S. S. S. contains no harmful drugs, and is the only remedy that can be taken by the young and old, and the feeble and the strong, and the diseased and the healthy. It is the only remedy that can be taken by the young and old, and the feeble and the strong, and the diseased and the healthy. It is the only remedy that can be taken by the young and old, and the feeble and the strong, and the diseased and the healthy.

FOR THE HOUSEWIFE

Adulterated Foods.
Professor E. F. Ladd of the chemical department of the North Dakota Agricultural college says:

"I do not care to pose as an alarmist or to injure the business of any man, but brought continually as I am in contact with the existing conditions and knowing the harm that comes from the use of these products I feel that the public is entitled to know the facts."
"From a small quantity of preserved strawberries, jam or jellies, about what one might eat at a single meal, I have extracted enough aniline dye to color a piece of flannel four inches square a bright red. From a teaspoonful of lemon extract I have taken as much picric acid as physicians would be likely to prescribe in two doses. I have recently examined, for example, what purported to be blackberry jelly made from paste, possibly a little jelly added, colored with coal tar dyes, preserved with formalin and sweetened with glucose."

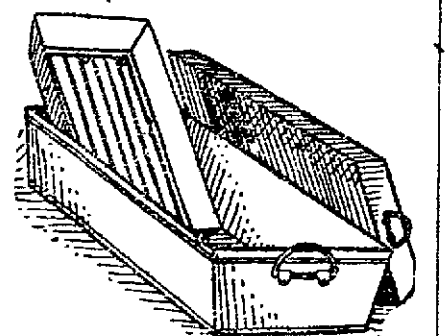

"Should not some steps be taken to enforce the pure food law?"
"Similar violations occur in most states."

A Smokeless Frying Pan.
No more horrid odors through the house when cooking is in progress. A smokeless frying pan is the latest invention to come to the housekeeper's aid. There is a diminutive chimney in one side of the frying pan by which all the odor of cooking is sucked down into the stove and, presto, up the chimney. Tiny perforations in the lid aid the work.

The hole in the bottom of the pan is on one side, so that it in no way interferes with anything placed in the pan. It is also walled around with the material of the pan to the top, so that the careful housewife need not fear that any of the juices or frying material will escape. The gases are sucked down through the natural vent, the chimney. Now that it has been so well done one wonders it was not done before. The bane of frying is the smoke and soot that fill the kitchen and in spite of the utmost care creep all over the house. This is an effectual remedy. It is inexpensive too.

A Shad Roe Salad.
A shad roe salad needs a pair of roes boiled a half hour in salted water, to which a tablespoonful of vinegar has also been added. Remove from the fire and plunge into ice water. Drain, skin and slice thin with a silver knife and serve with a French dressing made as follows: Put one and a half teaspoonfuls of salt in a bowl that has been rubbed with a halved onion, cover with pepper, then with cayenne, add six tablespoonfuls of oil and two of vinegar. Before stirring at all add a piece of ice the size of an egg and then stir all with a fork for five minutes. Remove the ice and beat until thick. Use at once. Garnish the roe salad with pieces of cucumber cut in cubes and a teaspoonful of finely chopped chives.

A New Meat Roaster.
The meat roaster shown here is one of the new things intended to facilitate and improve the process of roasting.

CONSERVES THE SAVORY ODORS.
The inner pan has a wire tray in the bottom, which can be lifted out. Meats cooked in this utensil have all the savory odors closed in during the cooking.

The Ring in the Cake.
It is the custom at some social gatherings to mix various objects, such as coins, rings, thimbles, etc., in a cake to furnish amusement to the guests. There are two objections to this custom as ordinarily carried out—some of the metal articles may not be perfectly clean, and there is the risk that the smallest among them may be swallowed. The best plan is to twist each article in a bit of oiled paper, which will prevent risks from either cause.

Use Matting in Summer.
Matting is dirty and expensive for continuous wear. For summer, however, it is highly desirable. Those who have carpets cannot do better than to follow the example set by Stephen Girard. Each spring this worthy business man had all his carpets taken up, the house cleaned and the floors then covered with matting. The carpets were thoroughly cleaned and were placed in horsebays for storage till fall.

A Combination Jelly.
A housewife who has tried it says that a delicious combination jelly is made by cooking a half peck each of apples and quinces and a quart of raspberries together and then after barely covering with water. Strain and to every pint of juice allow a scant pint of sugar, then proceed as with other jellies. It is deliciously flavored and a beautiful pink in color.

To Hang Pictures.
A device for hanging a group of small framed pictures consists of a small horizontal bar of wood. It is suspended from the top of the building, of the wall and the small pictures are suspended from it by means of a cord or wire. The device is simple and effective and the pictures are easily changed.

THE PRESIDENT

Of the City Council, Wilkes-barre, Pa., Cured of Rheumatism.

Col. Wm. J. Harvey, a president of Wilkes-barre's city council, who will long be remembered for his great work for the city, was once a mere physical wreck, torn in every muscle and nerve from the frightful pains caused by rheumatism. He consulted the best physicians, went abroad, took mud baths, and almost every known treatment for the disease. A friend had had a very similar experience and Dr. David Kennedy's Favorite Remedy had cured him, so he recommended this great kidney medicine to Col. Harvey and he is to-day a well man, hale and hearty. He writes straight to the point.

Dear Sir:—This is to certify that I was permanently cured of rheumatism by the use of Dr. David Kennedy's Favorite Remedy.

Wm. J. HARVEY.

Rheumatism is but another name for uric acid poisoning which is caused primarily by diseased kidneys. Cure your kidneys and the rheumatism disappears.

For all diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, as well as sicknesses peculiar to women, Dr. David Kennedy's Favorite Remedy is unquestionably the greatest medicine known to the medical profession.

It is for sale by all druggists in the New 50 Cent Size and the regular \$1.00 size bottles—less than a cent a dose.

Sample bottle—enough for trial, free by mail. Dr. David Kennedy Corporation, Rondout, N. Y.

FINE TIME

Enjoyed at Home of Pressly Priest—An Old Fashioned Country Dance and Party.

A guest who was present at a party given at the home of Pressly Priest, the gardener, Madison township, on Thursday night, given an interesting account of it. The affair was in nature of an old fashioned country dance and party, with a fine supper afterwards.

Aside from dancing, games of various kinds were participated in. Those present were Mr. and Mrs. Pressly Priest and children, C. B. Fleming and family, H. L. Simpson and family, Mr. and Mrs. William Hughes and children, Mr. and Mrs. J. A. Lott, C. Z. Kreeger, Mr. and Mrs. Calvin Williams, Jesse Fink, W. C. Loper, Reuben Evans, Benjamin Priest, Everett Priest and Miss Bessie Priest. The out of town guests were George Priest, Walter Reed, J. E. Jones, Allen Reed, Ura Reed, Clarence B. White, Misses Minnie Lott, Minnie Kiser, Margaret Redman and Miss Pearl Howard all of Newark; Edward Hickey, Zane Wickham and Jeff Cartnell of Clay Lick; John Nutter and Miss Pearl Nutter of London Hollow; Allen Evans of the Erie Soldiers and Sailors Home of Sandusky, and Miss Florence Spring of Zanesville. Fine music was furnished by Daniel Hupp and William Oatman. The caller was George Priest and the manager was Benjamin Priest. The supper was served at midnight. During the intermission every body enjoyed themselves, card playing and other games were participated in by the elder people. The French Four was led by Mr. William Evans, aged 37, Mrs. Pressly Priest aged 65, William Oatman aged 35 and Mrs. Frank Martin. A splendid time was had by all.

WHAT IS WORN.

Panne Medallions—Very Much Flounced Gowns.

Very fine face cloth is much favored for spring gowns, and this is inlaid with guipure arranged over panne. This is a pleasing mode of introducing color and is already taken up by first class modistes. Tabs have by no means had their day, but the little medallions of panne are newer and are most effective when inclosed in a wheel or diamond shaped motif of guipure or passementerie.

Lace flounces are rarely out of fashion, and just now it is quite modish to wear lace frills covering half the skirt. Plaited frills are also popular, and

these are generally either very deep or very narrow. Not only are the skirts much flounced and frilled, but deep frills fall from the bodice or there is a wide berth of lace or plaited chiffon which covers the bodice almost to the waist.

DAINTY EFFECTS.

Large Bows of Soft Satin Ribbon. Three-quarter Coats.

The chon is giving place to long wind-mill bows of soft satin ribbon, of which a pale lime green, tender ciel blue and a soft shimp pink are the favorite shades. A cluster of violets, roses or carnations is usually tucked in at the side, and the delicate blending of color is a great improvement on a black or white gown.

Ex-Mayor Ames Will Return to Minneapolis on Saturday Morning.

Manchester, N. H., March 13.—Adelbert A. Ames, formerly Mayor of Minneapolis and a fugitive from justice, contrary to the advice of his physician, and, it is believed without the knowledge of his counsel has decided to stand trial. He will leave Saturday morning by the way of Boston and Chicago, and will therefore be out of New Hampshire when the time limit to get bail is up. He will be accompanied by Mrs. Ames and child. His decision to return was voluntarily made, but it was not announced until his wife's relatives had come forward with sureties enough for his bail of \$12,500.

LOVE MAKING

Was Over When the Stranger Suggested that Mrs. Breslin Sell Her Home.

Urbana, O., March 13.—Several weeks ago Edward Breslin, after a mysterious absence of eight years, reappeared at the home of his wife in St. Paris, west of this city, but she would not have anything to do with him. Yesterday a stranger, saying he was from New York, called on Mrs. Breslin. The stranger claimed to be very wealthy, saying that he was the possessor of vineyard hills and aromatic citron groves without limit in California. He wanted to marry Mrs. Breslin and spend their honeymoon mid this fragrance. Mrs. Breslin was inclined to entertain the proposition. At the last moment the new lover urged Mrs. Breslin to sell her home, saying that he would take care of the money. The love-making was then over. The stranger wanted to remain, although Mrs. Breslin ordered him off her premises. He would not leave until she secured her revolver and thrust it in his face.

St. Patrick's Day.

Tickets will be on sale Monday morning at 8.30 o'clock at Taylor Hall for the St. Patrick's Day Entertainment, as well as the other places mentioned.

WHY HE DOES IT.

Druggist Frank D. Hall Gives Reasons For Selling at Half-Price.

"It isn't often that I have faith enough in the medicines put up by other people to be willing to offer to refund the money if it does not cure," said druggist Frank D. Hall to one of his many customers. "But I am glad to sell Dr. Howard's specific for the cure of constipation and dyspepsia on that plan."

"The Howard Co., in order to get a quick introductory sale, authorizes me to sell the regular fifty cent bottle of their specific for half-price, 25 cents, and although I have sold a lot of it, and guaranteed every package, only one has been brought back as unsatisfactory."

"I am still selling the specific at half-price, although I cannot tell how long I shall be able to do so. Any person who is subject to constipation, sick headache, dizziness, liver trouble, indigestion, or a general playful condition, ought to take advantage of this opportunity. If the specific does not cure them, they can come right back to my store, and I will cheerfully refund their money."

AMUSEMENTS.

"The Blondells," Edward and Libby, the original "Katerjammer Kids" whose far reaching reputations as the leaders of the world in their imitations of comical juvenile characters, has become town talk in every city of importance on this continent. These finished artists are supported this season by a carefully selected company of popular players who fit the parts which have been assigned to them perfectly. "Through the Center of the Earth" comes to this city next Tuesday night March 17.

AUDITORIUM, WEDNESDAY, MARCH 18.

Those Famous Funny Fellows, Wood and Ward, presenting their jolly, jingling farce "Two Merry

Tramps." Twenty artists, twenty novelties. Common sense prices, 25, 35, 50.

A CLEVER COMPANY.

While the comedy "Two Merry Tramps," as presented by Wood & Ward's company has been pronounced a bright satire by the press throughout the country during the past two years the play in itself is of minor importance, the specialties and musical numbers introduced almost continually during the action of the comedy being the features that have placed this organization at the head of its class. Some twenty pleasing musical and novel specialties are given among the most being the "Hobo Two-Step" by Wood & Ward and the Murray Tain Sisters, the race of New York, "Tell Us Pretty Lady" as sung in "Floriana," "My Blushing Rose," with choros by entire company, "The Big Detective," a musical satire on Sherlock Holmes, "The Bowery Quartette" in "The East Side Belle," the Indian Opera and numerous individual specialties. The abund-

ance of bright and pretty costumes, dashy tuneful music and scenery make the production of the "Two Merry Tramps" so largely an elaborate extravaganza that theatre goers scarcely realize that they are witnessing a farce comedy, it being so different from the ordinary play of its class. Two Merry Tramps will be at the Auditorium on Wednesday night March 18.

In winter time many people do not get the proper exercise necessary to promote good health.

The blood becomes thick, circulation slow; eliminating organs inactive; the system retains for longer time excretory matter, and disease naturally ensues. It may develop in indigestion, fevers, mal-assimilation, rheumatism, general debility, nervousness, coughs, colds, bronchitis. For these conditions Hage's Cordial of Cod Liver Oil is unequalled. It's a revitalizer, purifier and reconstructor—contains all the active principles of cod liver oil, without the nauseating grease, fishy odor, or unpleasant taste. Pleasant to take. IDENTITY

Of Man Who Jumped From Second Street Bridge Is Still Unsolved--Some Think It Was C. O. Hamilton.

Was it P. T. Sherwood or Charles O. Hamilton that took the fatal plunge from the Second street bridge into the rushing waters of the South Fork last Tuesday evening?

The investigation of every clue that could possibly lead to the man's identity, has been the business of the Advocate's corps of reporters, and the facts brought out and the chain of circumstances developed by this investigation bids fair to clear the mystery in a manner entirely satisfactory except the recovery of the body, and in this latter case, it will in all probability prove the correctness of this paper's conclusions.

The description of the man with whom David Stauch walked to Second street bridge Tuesday night, and many of the circumstances of that day, point conclusively to the fact that either Sherwood or Hamilton was the man who committed suicide by drowning, the latter probably being the man.

C. B. Hahn, a B. & O. train dispatcher, knew both men, and reading the Advocate's account is positive that the suicide is C. O. Hamilton.

Granville, O., March 13—Thursday Granville people were given notice of the Senior exhibition, by imposing yellow posters announcing "Willie's Great Show" for Thursday evening, with his well trained company, "Billy, the Heart Smasher," "Olmstead, the Strong Man," "Chaffee, the Wild Man from Texas;" and "Bert, the Virginia Tornado." Promptly at eight o'clock Recital Hall was filled to overflowing with an eager and interesting audience. The following program was enjoyed:

"The Power of Individualism," William Hazlett Spruill; "The Strength of President Roosevelt," Roe Burt; "A Few of Brook Farm Associations," Daisy Shambaugh; Organ Solo, Mary Tuttle; "The Average American," Howard Olmstead; "The Survival of the Unfit," Harold Chaffee.

One of the most delightful and charming social events of the winter season was the reception given by Mr. and Mrs. W. H. Kussmaul at their handsome residence on Prospect St., on Thursday evening to a large number of the young people of the village in honor of Miss Roedel, of Zanesville who is their guest. The evening was spent in having a good social time which was seasoned with refreshments.

While returning from the gymnasium to her room in King Hall on Thursday afternoon Miss Anna Beattie had the misfortune to fall, spraining one of her arms very badly near the elbow, and tearing the ligaments of the arm. A physician was called who attended to the injury. While Miss Beattie will probably be unable to resume her work in the college for a few days, her many friends hope that she may speedily recover.

Miss Belle White, formerly a student at the Conservatory of Music at Shepards College, is spending a few days in town.

Miss Carrie Mellowes of Dayton, who was student at the Conservatory of Music last year, is visiting her Chi Psi Delta sisters at Shepards College.

E. J. Case Thursday sold seventy-five acres off of his Loudon street farm to Mr. Claggert, who resides south of Newark. Mr. Claggert will take possession the first of April, and will farm the land.

Among those from a distance who attended the funeral of the late Dr. Grover, were his sister, Mrs. Galloway of Bowling Green, Ky., and his brother, Fred Grover of Pittsburg.

The Lewis property on Maple St., has been sold by E. G. Case to Mr. John McKinney, who has occupied the house.

Mr. and Mrs. Jacob Bolen have gone to Albany, Athens county, where they will remain for several days.

After a short visit with friends and relatives in the village, Miss Harriet Young has returned to her home in Pittsburg.

Mrs. Swing has been confined to her home on College street for some days with sickness.

Mrs. Mary Knaptrick will have a public sale at her farm two and a half miles north of Granville on Thursday, March 19, of stock, grain vehicles farming utensils etc. The sale will begin at 9 o'clock a. m.

Acker's Blood Elixir positively cures Chronic Blood Poisoning and all Scrofulous affections. At all times a matterless system tonic and purifier. Money refunded if you are not satisfied, 50c. and \$1.00.

Bar Tenders' Ball.

Among the various union organizations of the city one of the strongest and most prosperous is the local union No. 412 of the Bar Tenders' International League. The members of the union are contemplating giving their first annual grand ball. The ball will be held at the Danman's Hall on Thursday evening, March 24, and there will be a fine time and a good time going with it. The most delectable and the most delicious and the most delicious of the occasion.

NERVOUS DYSPEPSIA

A Disease That Robs You of Every Pleasure In Life
HUNGRY and CAN'T EAT
MAKES YOU NERVOUS, MOROSE, SULLEN, IRRITABLE AND DESPONDENT.

DR. A. W. CHASE NERVE PILLS CURE

Overwork the stomach or subject it to the depressing influences of worry, care or constant excitement and it gives out—ask it to digest anything, everything, at any time and in half the time required and like an over-driven horse it balks. The reason for

A NERVE TONIC NEVER EQUALED

THIS SHAPED BOX—NO OTHER

this lies the close nerve relationship existing between the brain and stomach. Nature intended the stomach to have regular hours. A time to work, a time to rest—and when you break up this habit, you upset the whole arrangement. The stomach nerves become exhausted, the glands refuse to act, the food does not digest—lies heavy, ferments and repeats. There is pain, gas forms, bloating occurs, the heart becomes irregular and a nervous irritating feeling sets in. This is nervous dyspepsia and Dr. A. W. Chase's Nerve Pills its cure.

MRS. JAMES H. TITUS of No. 107 Clinton street, Warren, Pa., says: "Dr. A. W. Chase's Nerve Pills are just splendid. My stomach bothered me for 12 years—food digesting slowly—heavy after eating. I was fearfully dizzy by spells and very nervous. I tried everything, other medicines doctors, anything I was told to, but the Nerve Pills I got settled all this. They cured me. I feel well in every way today—no weakness or dizziness and digestion splendid. I have been and will continue to recommend them strongly, as I believe the medicine to be unequalled in its ability to cure such troubles, as it certainly acts like magic with me."

MRS. F. KOEHL of No. 246 South Main street, St. Mary's, Ohio, says: "Dr. A. W. Chase's Nerve Pills I got are excellent in nervous dyspepsia. They make a weak stomach strong, increase in digestive powers and enable it to handle food with ease and in this way do away with all distress after eating. The nervousness that comes with these attacks is also cured by the tonic and strengthening effects of the medicine on the nerves. I have no hesitancy in commending the medicine to others, as I believe it to be all that is claimed for it and a little more."

The Photo Engravers.

The proposition to harmonize the two national organizations of photo engravers contemplates a referendum in the International Typographical union and the photo engravers' unions as to the wisdom of a separate international organization of the photo engravers to be formed at a convention of representatives of all the engravers' locals in the country after the plan shall have been agreed to. The I. T. U. is to surrender jurisdiction over the engravers, but there is to be a compact that will insure friendly trade relations between the two bodies.

THE FEAR OF HUMBUNG

Prevents Many People from Trying a Good Medicine.

Stomach troubles are so common and in most cases so obstinate to cure that people are apt to look with suspicion on any remedy claiming to be a radical, permanent cure for dyspepsia and indigestion. Many such pride themselves on their acuteness in never being humbugged, especially in medicines.

This fear of being humbugged can be carried to far, so far, in fact, that many people suffer for years with weak digestion rather than risk a little time and money in faithfully testing the claims made of a preparation so reliable and universally used as Stuart's Dyspepsia Tablets.

Now Stuart's Dyspepsia Tablets are vastly different in one important respect from ordinary proprietary medicines for the reason that they are not a secret patent medicine, no secret is made of their ingredients, but analysis shows them to contain the natural digestive ferments, pure aspartic peptin, the digestive acids, Golden Seal, bismuth, hydrate and nux. They are not cathartics, neither do they act powerfully on any organ, but they cure indigestion on the common sense plan of digesting the food eaten thoroughly before it has time to ferment, sour and cause the mischief. This is the only secret of their success.

Cathartic pills never have and never can cure indigestion and stomach troubles because they act entirely on the bowels, whereas the whole trouble is really in the stomach.

Stuart's Dyspepsia Tablets taken after meals digest the food that is all there is to it. Food not digested or half digested is poison as it creates gas, acidity, headaches, palpitation of the heart, loss of flesh and appetite and many other troubles which are often called by some other name.

They are sold by druggists every where at 50 cents per package.

NEWARK ELKS

Conduct an Initiation Which Adds Three Names to the Membership Roll—Social Session Followed.

Newark Lodge No. 391, B. P. O. E. had another enjoyable and successful meeting on Thursday night, at which three well known citizens of Newark were initiated into all the rights and mysteries of Elkdom. The initiates of Thursday night who are now entitled to wear the branching antlers of the Elk, and to sport the purple and white, are Messrs. E. L. Weisgerber, formerly of the Baltimore and Ohio Railroad in this city; E. J. Maurath, the well known coal dealer and J. R. Garrison of the Franklin Bank.

There was a large attendance of the members of the lodge, including two visiting brethren from a distance, Messrs. Evan S. Shelby of Lafayette, Ind., and G. F. Hess of Winfield Kan. Exalter Ruler Dr. G. H. Wood, conducted the inspiring ceremonies with a special team headed by Equires F. T. Maurath and James E. Keech.

At the conclusion of the initiation a social session was held. Exalter Ruler Woods presiding, which was one of the most enjoyable of the many that have been held by Newark Lodge.

Judge E. M. P. Brister gave the Eleven O'clock toast.

The visiting brethren, E. S. Shelby and G. F. Hess, told about the work in their home lodges.

The previous class of initiates, Messrs. John Mohlenpach Charles Wells and J. Gallagher and the class of Thursday night, Messrs. E. J. Maurath E. L. Weisgerber and J. R. Garrison told how they liked it as far as they had gone.

George L. Warner gave one of his inimitable recitations.

Brief and appropriate remarks were made by Brothers Frank Bolton, J. E. Keech, P. B. Smythe C. W. Miller, William Fitzgibbon, Sheriff W. H. Anderson, Jr., Ex-Sheriff George W. Horton, G. E. Graesser and E. W. Crayton.

The entire meeting was a complete success in every particular.

Springfield, Mass., March 13—Arthur Pennell, who met death at Buffalo Tuesday by being thrown from his automobile wrote a letter last Saturday to Mr. E. H. Norton, Jr., of this city who was his classmate in Yale. The letter follows:

Buffalo, N. Y., March 7, 1903.

"My Dear Norton: I presume you have seen the newspaper accounts of a mysterious crime here at Buffalo, in which my name has most unjustly received great publicity. In the mass of sensationalism and yellow journalism which has followed the affair the truth was utterly lost. I had no connection with the crime, of course. My name was brought in through the divorce proceedings which were then pending. There was no truth in the charges in those proceedings. They were absolutely denied under oath by the defendant and myself. I was dragged in out of vindictiveness, because my wife and myself had taken the part of the wife against the husband and she had come to me for legal advice and protection. The man in the case was all the time in intimate relations with other women. The case would have been quietly tried and the charges disproved, but just at this time, his teeth at the hands of some unknown woman occurred and the whole matter became public. Then came a deluge of lies and falsehoods which had no basis in fact. The notoriety has been almost unbearable. 'I wait you and such friends I care about to have the truth, and I know you will believe in me. I have been very much broken over it all.

Very truly,
ARTHUR R. PENNELL.

CRAZE FOR LEASES IN NORTHERN LICKING

Has Set an Army Loose—Farmers Getting Wonderful Prices—Gas and Oil Notes.

The Utica Herald of this week contains the following in reference to the big gas territory in Northern Licking county:

"Farmers northeast of Utica are profiting from the fact that gas developments were begun in the neighborhood of Homer instead of here. In the Homer neighborhood at the start competition was slight and the value of the field was problematical, with the result that most of the leases were made at 50 cents per acre with no payment for the first year. Where big prices were paid they were for only small pieces on which one well would shut off the rental, as a rule. In the newly-opened territory, about and northeast from Utica, the situation is different. The value is known competition is sharp, and rentals are being made at \$2 to \$5 per acre per year, beginning from date.

"For his 100 acre farm beside Owl Creek church, Joshua Shaw gets \$40 per year, the first year's rental having been paid in advance. Roger Roberts is said to have received \$5 an acre for his 25 acres. W. H. Latham gets \$5 an acre for his 16 acres. Mrs. John Ewart's land is further from any well, but \$350 an acre is hers. The \$5 per acre leases are small pieces, from which figures the prices seems to run down to \$2 per acre for the largest tracts and those further east and south from the developments. Dr. D. P. Campbell owns 700 acres in the heart of the good stuff but he has not yet leased and stated yesterday that he had received no definite offer from anyone.

At the Gourley well they ran short of drive pipe at 183 feet. A load was started there Tuesday, but the ground was so soft that neither Kirkpatrick nor Torrens was willing to allow it to be hauled over their fields, and it will be delayed a day or two till the water goes down. It is feared that 300 feet will be needed there, as the well is located in what ages ago was the bed of the river and experience elsewhere close to the creek shows that the rock is worn to great depth in such places.

At Lima, Saturday the Griffin-Lenneman Oil Co. procured a temporary injunction against and further suit for \$24,000 damages the Imon Oil Company a Cleveland corporation, alleging the defendant failed to case oil wells and allowed fresh water to flow into the oil-bearing rock of the plaintiff's lease adjoining. The suit is peculiar and will be of great interest in the oil regions, testing the State law regarding the plugging and casing of oil and gas wells.

Contractor Hunt is to receive \$11 per foot for drilling the test well at Creton, the contract being for 2500 feet unless oil or gas is found in paying quantity before that depth is reached. He agrees to be ready to

start the drill by April 1st or sooner if the weather permits.

The Logan company Wednesday began drilling on the Low Edman farm. The well is the No. 1 in which the tools were struck some time ago and the derrick had to be moved. No. 2 on the same farm has been finished since the trouble occurred with this one.

Work at the Gourley gas well of the home company was stopped Saturday night by the high water breaking the inch pipe which conveyed fuel gas from the Sperry well, across the creek to the boiler. The trouble was remedied Monday and drilling was resumed.

Rigman L. W. Ogden goes to work Friday at the Dunlap farm on the rig which is being moved from Speedman's. It is thought that a new crew will be brought from Sugar Grove to drill.

The Logan company brought in a well last Friday night on the Mulligan farm half a mile south of the Hunter. It is good for five millions a day.

The Logan company's pay checks for the months of December arrived here Tuesday.

A Neat Souvenir.

The Journal-Herald, a wide-awake and up-to-date paper of Delaware, O., has just published a handsome little souvenir, copies of which are being circulated among friends and patrons of the paper. The booklet contains well printed half-tone views about the Journal-Herald office and pictures of every member of the force from "devil" to editor-in-chief J. D. Knowles.

Fred M. Armstrong, a Newark young man, is city editor of the paper, and in that capacity he is doing splendid work. Mr. Armstrong, who is a son of the Rev. Mr. Armstrong, lived in Newark from 1887 to 1890, and attended the high school here. Later he was at Cornell university and while in college there was special athletic correspondent for the Rochester, N. Y., Democrat and Chronicle. While in Newark Mr. Armstrong was one of the Advocate carrier boys. He knows the newspaper business from "the ground up" and is a very popular member of the Journal-Herald staff.

George Sawter, who was named to succeed Tom Nast as consul at Guayaquil, Ecuador, returned to New York today. Nast it will be remembered, died of yellow fever. Sawter feared the same fate. He may not go back.

After having been off duty for a few days, Brakeman A. F. McAndrew has returned to work on the C. O. division.
